**National Electronic Attachment, Inc. Ranked in *Inc.* Magazine
Top 5000 List**

ATLANTA--Aug. 18, 2009-- *Inc.* magazine announced its annual Inc. 5000 ranking of the fastest-growing private companies in America. National Electronic Attachment, Inc. (NEA) came in at No.102 in the Inc. 5000 Software category, and No.1651 on the overall Inc. 5000 list. NEA is up more than 300 spots from its previous 2008 ranking of 1959.

“We are proud to again be selected by *Inc.* magazine. Our employees have been the key to our growth,” said Thomas W. Hughes, CEO and President of NEA.

Inc. magazine expanded its Inc. 500 list in 2007 with the debut of the Inc. 5000. According to *Inc.*, since its inception, the list has served as evidence of the significant accomplishments of entrepreneurial companies. The full list can be found on inc.com.

NEA, *The Recognized Leader in Electronic Attachments*, found its success with the creation of its *FastAttach*[™] system, which enables dental offices to transmit dental attachments (x-rays, perio charts, intra-oral pictures, and narratives) to NEA’s repository, where insurance payors can view them. *FastAttach*[™] speeds up processing and eliminates the cost of duplicating and mailing x-rays or hard copy documents. NEA currently serves more than 360 dental payors in all 50 states.
